

Request for Quotation - Custom Embossed Leather Binder

Acquisition Invest LLC · 250 Mt. Lebanon Blvd, STE 210, Pittsburgh, PA 15234 · admin@arcomage.org · (833) 319-3160 · WhatsApp +1 (724) 431-5207

RFQ date: 2026-06-30 · Product: custom A5 refillable leather ring-binder ("spellbook") for a published tabletop game

We are sourcing a custom-branded version of an existing product and are requesting a formal quotation. We intend an initial production run with repeat orders to follow. Please quote against the exact specification below and return unit prices at the listed quantity breaks.

What we need first: the price of one custom SAMPLE. Before any bulk order we will buy a single sample binder with our artwork. Please quote **the cost of one custom sample** (each of options A/B/C) and its lead time, and say whether that cost is **credited against a bulk order**. We are planning an initial run of **100-500 units** with repeat orders, so please also quote the 100/200/500 ladder. A physical sample is how we choose our supplier.

1. Reference product (build target)

We want a binder **built exactly like** this retail item, substituting our own cover artwork:

Amazon ASIN **B0D73XLGCD** - "DUROTAN DND Notebook Vintage Dragon Journal, Refillable Leather A5 Binder." If you make this item or an equivalent, please say so.

- **Size:** A5 (approx. 148 x 210 mm page area), refillable
- **Cover:** faux / PU leather, oxblood-red (also quote brown + black)
- **Ring mechanism:** **6-ring** metal, A5 6-hole spacing (Filofax standard: 5.5 mm holes, two groups of 3, 19 mm within group, 70 mm between groups)
- **Cover decoration:** full-cover **deep 3D emboss** of a detailed illustration inside an ornate frame border
- **Metal hardware (required, like the reference):** 4 x brass **metal corner guards**, decorative **brass star/flower rivets** (studs), and a wrap strap with a **painted metal clasp featuring a set gemstone**
- **Capacity:** to hold 100+ A5 pages comfortably

2. Our customization

Replace the stock dragon artwork with **our supplied artwork on BOTH the front and back covers** (full-cover). Art files are provided (see Section 5): high-resolution line art plus a layered PSD.

3. Quotes requested - please price these THREE options separately

#	Option (cover decoration)	What we mean
A	Custom emboss, front & back	Deep 3D blind emboss of our art on front and back covers (single-tone, no color fill).
B	Emboss + color / "painting"	Option A plus full-color rendering of the art on the embossed leather (the multi-tone "painted" look).
C	Emboss + foil	Option A plus metallic foil accents (gold/silver/copper) on selected elements (logo, frame, title).

On the "painted" option (please read): we do not assume the color is applied by hand. Modern shops print full color and texture directly onto embossed leather and even raised metal using **DTG / UV flatbed / digital** printers. Please state **exactly which process** you use for Option B (DTG, UV-print, screen, pad-print, transfer, or hand-paint) and price it as that process. We are comparing multiple suppliers and will not accept a hand-painting premium for what is a digital print. If you have a UV/DTG line that prints on leather, quote it - that is what we expect.

4. For EACH option (A, B, C) please provide

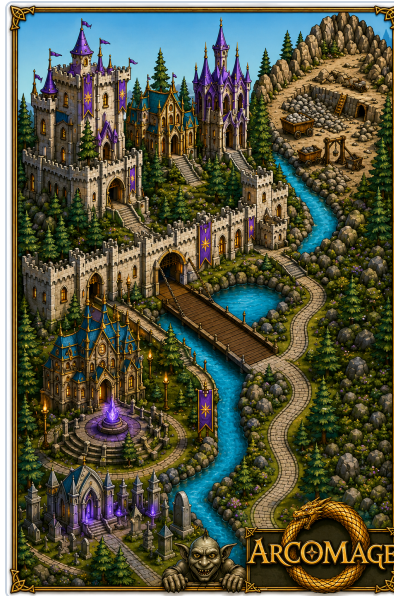

1. Unit price at **MOQ, 100 pcs, 200 pcs, and 500 pcs**
2. One-time **tooling / emboss die / foil die** cost
3. **Sample** cost and lead time (we require a custom sample before bulk)
4. Bulk production lead time
5. Genuine-leather price difference (optional alt)
6. FOB port, carton pack-out, unit weight, and whether Alibaba **Trade Assurance** is accepted
7. The exact decoration process used for Option B (see note above)

5. Artwork supplied

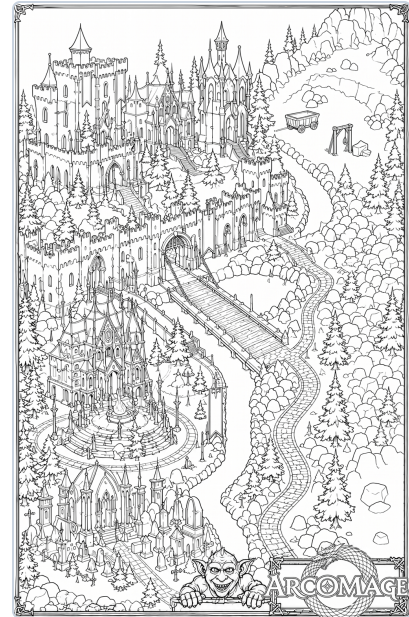

We supply, for each cover, an **emboss-ready line-art** version (for the die) and a **full-color** version (for the DTG / color print). Two front-cover designs are shown; we will pick one final design with the chosen supplier.

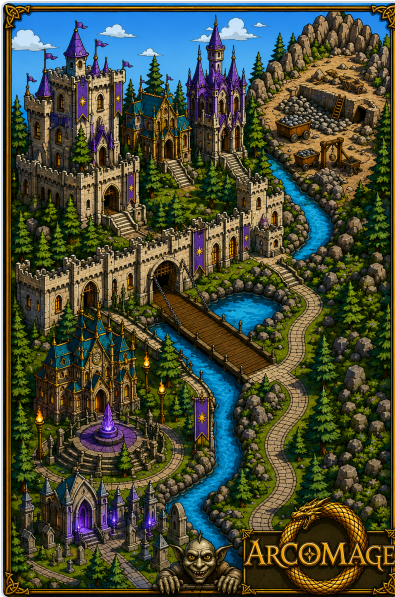

front_cover_simplified_gpt.png - front cover DESIGN 1, EMBOSS-ready line art

front_cover_simplified_gpt_colored.png - DESIGN 1, full color (DTG)

front_cover_simplified_gem.png - front cover DESIGN 2, EMBOSS-ready line art

front_cover_simplified_gem_colored.png - DESIGN 2, full color (DTG)

back_logo_dtg.png - back cover logo (DTG / foil)

For the emboss die, use the "_simplified_" line-art file of the chosen design (bolder, simplified line weight that survives a leather press). Use the matching _colored file for the color / DTG print option. Please return a physical emboss proof at our line weights before cutting the final die.

Layered source: **front_cover_detailed.psd** (available on request / attached). We can supply 1-color die-ready vector art for the emboss/foil dies on request.

6. Order intent

Initial run in the low hundreds with committed repeat orders. Please quote the full 100/200/500 ladder so we can plan volume. Point of contact: Acquisition Invest LLC, admin@arcomage.org, (833) 319-3160,
