

Request for Quotation - Full Boxed Board Game (Complete Manufacture)

Acquisition Invest LLC · 250 Mt. Lebanon Blvd, STE 210, Pittsburgh, PA 15234 · admin@arcomage.org · (833) 319-3160 · WhatsApp +1 (724) 431-5207

RFQ date: 2026-07-01 · Product: a complete, boxed tabletop game ("ArcoMage") - full component manufacture and assembly

We are bringing a finished tabletop game to production and are requesting a formal quotation to **manufacture and assemble the complete boxed game** to the specification below. We are comparing multiple factories. Please quote against every line item and note anything you would substitute.

Product render of the finished boxed game (box art shows 2-4; the game itself is a 2-player duel).

What we need first: the price of a single SAMPLE / pre-production copy. Before committing to a run we will order one sample. Please quote **the cost of one sample unit** and its lead time, and say whether that cost is **credited against a bulk order**. We are planning an initial run of **100-500 units** (repeat orders to follow), so please also quote the volume ladder. A physical sample is how we choose our supplier.

1. The game box (contents list)

One retail-ready boxed game containing all of the following. Full-color throughout unless noted.

Component	Specification	Qty / box
Game box	Rigid two-piece box, approx. 2 x 10 x 12 in (5 x 25 x 30 cm), full-color printed wrap, matte finish. Include a fitted insert / tray to hold components.	1
Hex game board	Mounted (chipboard) folding board, ~ 10 x 10 in play area, printed hex grid of 35 mm hexes , full color.	1
Rulebook	Full-color, saddle-stitched, ~8-16 pp, A5 or US Letter (quote your standard).	1
Spell pages (A5)	200 pages = 100 unique spells x 2 copies. Each page is one spell, printed identically on BOTH sides (same image front and back). Pre-punched A5 6-ring cardstock (~300-350 gsm), full color, so pages drop straight into a 6-ring binder. (Binders are sourced separately - see note.)	200
Player sheets	8.5 x 11 in printed player reference / score sheets (loose sheets or a tear-off pad - quote both).	~4-8
Punchboard tokens	Full-color punchboard sheet(s): class tokens plus scrap counters (the scrap counter shows rubble ART, not a blank disk, since it sits on a card). Quote per punch sheet.	1-2 sheets
Custom dice (0-5)	CUSTOM six-sided dice, 16 mm, BLACK body with GOLD. These are 0-5 counters , NOT standard 1-6 dice - the faces are 1, 2, 3, 4, 5, and 0 , where the 0 is the gold ArcoMage ouroboros logo replacing the usual "6". Used as worker/counter trackers on the player sheet (never rolled). Each player uses 6; 2-player game = 12 total. Custom faces = custom engraving/tooling - see Section 1c .	12
Cloth bags	6 x drawstring cloth bags to hold the punch tokens + dice. The premium logo bag is fully spec'd in Section 1b below, with THREE decoration options to quote.	6
Track / slider markers	Cardboard slider markers for the tower / wall / resource tracks (quote as punchboard sliders or a small chipboard set).	set
Wizard miniatures	2 x small figures (one per player, fixed left / right positions). Quote plastic (PVC) and resin options + any tooling.	2

Finishing	Shrink-wrap each box; barcode/UPC panel on the box; carton pack-out for freight.	-
-----------	--	---

Note on the binders: the leather A5 6-ring binder that holds the spell pages is being sourced from a **separate supplier** and may be fulfilled and shipped separately from the box. You do **not** need to supply the binder - only the pre-punched spell pages that fit it. If you can also supply a binder, quote it as an optional add-on.

1b. Custom cloth bags - please quote THREE decoration styles

Each game ships with drawstring cloth bags for the tokens and dice. We want a premium **black velvet drawstring bag** matching the render: soft black velvet body, **gold satin drawstring cords** with **knotted tassel ends**, and the **gold ArcoMage ouroboros + wordmark logo centered** on the face.

- **Material:** black velvet / velveteen, ideally satin-lined (quote both lined and unlined).
- **Size:** approx. **13 x 18 cm** (about 5 x 7 in). Please also price your nearest stock sizes (e.g. 10 x 12 cm, 10 x 15 cm).
- **Closure:** gold twisted-cord drawstring, double-sided, with knotted/tasseled ends as shown.
- **Logo:** the supplied gold ArcoMage logo, centered, one side (quote 2-sided as an option).
- **Quantity:** the game uses **6 bags**. Please quote (a) all 6 as this premium logo bag, and (b) 1 premium logo bag + 5 plain black velvet bags, so we can compare.

Target look: black velvet, gold drawstring cords with knotted tassel ends, gold ArcoMage logo centered.

Quote the logo decoration **THREE** ways (separately):

#	Decoration style	What we mean
A	Gold embroidery	The logo stitched in metallic-gold thread onto the velvet.
B	Full-color print (DTG / screen / heat-transfer)	The full-color logo printed on the velvet. State your exact process and how it holds on pile fabric.
C	Gold foil stamp	The logo heat-pressed in metallic gold foil.

For EACH of A / B / C please give: per-bag price at **100 / 300 / 500** bags, one-time setup (embroidery digitizing / screen / foil die), **sample cost + lead time**, MOQ, and which method you recommend for durability on velvet. Logo art (vector + PNG) supplied on request.

1c. Custom dice - 0-5 counters (the "6" is our logo)

Our dice are **counters, not random dice**. They show a value **0 to 5** (the worker count in a building, or the free-worker pool) and are **never rolled**. So we need a **custom die face layout**:

- **Faces:** 1, 2, 3, 4, 5 in gold numerals, and instead of a "6" the sixth face carries the **gold ArcoMage ouroboros logo**, which the rules read as **0**.
- **Body:** black (marbled/antique-black as shown), **16 mm**, with **gold ink / gold-filled engraving** on numerals, logo, and edges.
- **Look:** antique black body with gold numerals/logo and gold-edged corners, as rendered.
- **Quantity:** 12 per game (6 per player), 2-player game.

Custom faces: 1-5 in gold, and the ouroboros logo in place of "6" (it reads as 0).

Please quote the custom die **TWO** ways (separately):

#	Process	What we mean
A	Injection-molded / engraved with DEPTH (preferred)	Faces have real recessed or raised relief (the numerals/logo are physically debossed or embossed into the die body), then gold-filled . Premium tactile look like the render. Include the mold/tooling cost.
B	Gold embossing / hot-stamp on a custom-face die (budget)	A flat custom-face die (no deep relief) where the 0-5 + logo faces are applied by gold foil / hot-stamp / print using a custom die . Cheaper - we want this price as the fallback if A is too expensive.

For BOTH A and B, please give: per-die (or per-12-die game) price at **100 / 300 / 500 games**, one-time **mold / engraving / stamp-die tooling** cost, a **sample** cost + lead time, and any **material** options (resin, zinc-alloy/metal). A standard 1-6 die is NOT acceptable - the sixth face must be our **ouroboros logo (= 0)**. Die-face art supplied on request.

2. For your quotation, please provide

1. **Sample / pre-production unit cost + lead time** (our immediate need), and whether it credits toward a bulk order.
2. Turn-key **unit price at 100, 250, and 500 units** (and your true MOQ if above 500).
3. One-time **setup / tooling / die** costs (box, board, minis, punchboard).
4. Bulk **production lead time** after sample approval.
5. Which components (if any) you would **substitute or cannot produce** in-house.
6. FOB port / EXW, carton dimensions + weight, and units per master carton.
7. Whether you offer **fulfillment / drop-ship** or export to the USA only.

3. Artwork

Print-ready artwork for the box, board, rulebook, spell pages, tokens and player sheets will be supplied as high-resolution files (with bleed) on request.

4. Order intent & contact

Initial run in the low hundreds with committed repeat orders. Point of contact: **Acquisition Invest LLC**, admin@arcomage.org, (833) 319-3160, WhatsApp +1 (724) 431-5207.
